STATE'S MOTION FOR APPOINTMENT OF COUNSEL TO ADDRESS *BONA FIDE* DOUBT AS TO FITNESS

NOW COME the People of the State of Illinois, by its attorneys, Kristen Miller and Dave Neal, Special Prosecutors, Illinois State's Attorney Appellate Prosecutor, and respectfully request that this Honorable Court **APPOINT COUNSEL TO ADDRESS BONA FIDE DOUBT AS TO FITNESS** in this matter, and in support thereof states as follows:

1. During the week of November 17, 2019, the special prosecutors, attorneys throughout the State's Attorneys Appellate Prosecutor's office ("ILSAAP"), other citizens, and members of ILSAAP's board of governors began receiving unsolicited emails from defendant, indicating – among other things – that the attorneys associated with ILSAAP were "corrupt" and that she was creating a Facebook page entitled "Illinois States Attorney Appellate Prosecutor Corruption Watch USA." (Appendices A & B)
2. Defendant attached a "link" to the Facebook page, which reveals that the following material was made public through the Facebook platform:

09:00 11/27/2019

a. The process here is a "kangaroo court";

b. The Director of ILSAAP is a "Satanic Cult member that abuses and probably kills and sacrifices people and children" because he attended a "Roman Catholic Law School!";

c. The home address of ILSAAP's Director;

d. Depictions of judges, prosecutors, and jurors as Kangaroos;

e. Photographs of State ILSAAP employees and members of the ILSAAP board of governors, indicating in the caption that they are "corrupt"; and,

f. Claims that the Peru Police Department was trying to "kill" her in order to "Rape [her] child" and that "several cult members tried to kill [her] to cover up this matter that Kristen Miller [the special prosecutor assigned to this matter] is behind." (Appendix A)

3. Defendant also included, as part of the public posting on the Facebook platform, a lengthy letter that she wrote describing how she has been poisoned – which has led to permanent organ damage – and that State actors intend to "kill" her like they "killed Jeffery Epstein." (Appendix A)

4. Given the appended material, it is clear to the State that counsel should be appointed to assist this Honorable Court in determining, pursuant to 725 ILCS 5/104-11 (West 2018), whether a *bona fide* doubt exists as to defendant's fitness to stand trial.

5. Defendant is appearing at this point *pro se*, while apparently seeking outside counsel.

09:00 11/27/2019

6. As counsel is appointed, the State would further pray that this Honorable Court consider whether commitment for treatment is appropriate pursuant to 725 ILCS 5/104-17 (West 2018).

WHEREFORE, the People of the State of Illinois respectfully request that this Honorable Court **APPOINT COUNSEL TO ADDRESS BONA FIDE DOUBT AS TO FITNESS** and further whether commitment for treatment is appropriate pursuant to 725 ILCS 5/104-17 (West 2018) in this matter.

Respectfully submitted,

MY COMMISSION EXPIRES 03-11-2023

My Story about how I was poisoned almost to death at an American Jail.

This is how I know they could very well have killed Jeffrey Epstein.

One year ago today, on August 18, 2018, I was poisoned in a Governmental Correctional Facility, The LaSalle County Jail of Ottawa, Illinois. There was a lot of corruption in the county of LaSalle ranging from a sex ring, cults, to previous corruption from the authorities, like Chief's of Police's prior workplaces.

I moved to LaSalle County, from Bureau County in 2013 to live in a place I got for really cheap, so I could own my own home as a new mother, and do the co-parenting visitation exchanges with her Father, easier. He lived in LaSalle County his whole life.

His parents worked for the City of Peru Illinois, and they were really good friends with the Peru Illinois Police officers. The Father's lawyer for the custody case also happened to be a family relative, related to his Father.

There are a lot of Catholic churches in LaSalle County, and a lot of corruption because of it.

My child's name was never listed properly on the court documents and the Father's attorney made a corporation out of my child's court case and all the professionals who took part in these matters, operated from personal religious preference instead of professional standards, which is the only time pay off's are allowed under the table, and in order to make their cult, aka corporation they made out of my daughter, money.

This was extremely corrupt and expensive to navigate around. I went through several lawyers and the Police and authorities in LaSalle County were continually growing more and more corrupt toward me.

They harassed me at my house, served me with false paperwork, and did everything within their power to push me out of town, get me evicted from my neighborhood, and cause me to have a criminal record and charges in order to disqualify my legal standing in my custody case.

They constantly were trying to help the child's Father win in court because they were such good friends with their parents. I didn't realize how much of a chance I didn't stand.

The Father was threatening to kill the child and me, and went crazy after I told him I was pregnant, telling me that this was horrible because his parents would take her from me and I had no idea what this meant.

He started making songs about killing us, and writing death threat notes, taking pictures with knives, and telling me he was possessed and it was an evil spirit making him do it, claiming it was the same spirit that also wrote all of his songs for him.

He and I fought a lot in front of the child and it was very immature and abusive. His parents were hostile and constantly making the child and I very uncomfortable. They were all extremely rude to her and I and they seemed to enjoy abusing her. The Father began to abuse her immediately when we got home from the hospital and she suffered because of this.

Although I was a bit distraught from the entire experience, I managed to go stay with a scientist friend of mine who helped me sleep train my child which helped me manage her sleep cycles so everything would be a lot easier. I knew it wasn't right at the Father's place but by time I went to go back, he insisted that we stay away. He suggested that I just give the baby to his Family, and go be a hooker on the streets, joking that it was similar to what he does as a musician.

He said that his parents really wanted the child and he did not.

They harassed me, stalked me, tried taking her from me in public places after hunting us down, etc. My baby was very shaken up by all of this and it was very stressful.

I thought if I told the judge about the harassment, threats and abuse that the law would protect us, but it didn't due to favoritism and bias. I didn't know I would not be able to rely on the American Government to protect something most important. I grew up in the next town over and never had a single problem with authorities my entire life and my Dad always was respected by them, and so was I. They always protected and respected women and children from what I remember, where I was from and I had never seen anything like how the authorities were conspiring with this family against my child and I.

The Father's family worked with their attorney to try to take custody of my child, where they listed her name on the visitation and paternity requests, as another name than her own, which is fraudulent procedures, and the Judge acted unprofessionally by allowing these slights and for the case to continue on a corrupt standpoint.

When they first got unsupervised visits with the child, the child was extremely abused and the abuse signs were nearly irreversible, although they diminished when she was back in my care. They were sexually abusing her and I found out that they were leaving her at a church near the Police station with people they didn't even know, for their visitation time with her, which was irresponsible and rude when they could have left her with me but they were making a huge deal about having her, just to be negligent and abusive to her, which doesn't serve anyone's best interest honestly.

With how I was better for her and they could adopt their own child to do whatever they want to, it didn't seem right for them to be so horrible and put their reputations and careers on the line by acting corruptly.

The police were behind this and worked with the Father's Attorney and DCFS to have the child ta placed with the Dad, who was found guilty of abusing the child in 8 previous DCFS reports made people. They neglected to protect my child and acted corruptly to place the child with the Dad an on corrupt procedures.

EXHIBIT

B

The Police were supposed to be investigating the Father for abuse when they gave he and his family $30,000.00 and admitted to this on the record, instead of investigating the Father.
My attorney had the police and several DCFS personnel admit to their corruption on the record in transcripts for this matter, where she was stripped from me and placed with the abusive Father, who was threatening to kill her, and which was a place of harm to her, which was an act of criminal child endangerment, amongst other things.
One of my Attorneys and I tried talking with DCFS handling the case, asking them why they weren't protecting my child, and showing them in their protocols how they were supposed to handle the situation, but they were corrupt. They told me to have a doctor make a report the next time she showed abuse signs, even though we had enough evidence already.
The next time the child showed abuse signs, I did as was directed by Denise Flores Ottawa Illinois DCFS supervisor, and the doctor made the report to the Peru Police and DCFS.
My child was taken from me and placed with the Father due to this matter. The DCFS lady who told me to do this used it as an excuse to ask her supervisor, Jim Marmion if she could take custody of my child and give her to the Dad, because the previous reports on Dad, had nothing done about them.
Her corrupt theory was that since nothing was done, nothing was wrong, and any new report that was made was due to fictitious disorder, or munchausen by proxy, which is just a corrupt conspiracy by her.
She demanded that I sign my rights to my child over to the Father and threatened me that if I didn't there would be a shelter care hearing to determine if taking protective custody of the child was right or not, and since it wasn't I opted for the shelter care hearing. She didn't like that too much and went to the court house with the Father's attorney immediately after my refusing to sign the rights to my child over, in order to obtain an Order of Protection against me for the child and to transfer custody of the child to the Father. A DCFS worker lied on the stand in that hearing in order to get the OP approved because a shelter care hearing to determine if DCFS was right for taking her in the first place should and would have been held other wise. DCFS would have gotten in huge trouble if that happened because all of the reports associated with the child would be reviewed by a shelter care judge before making a finding if taking protective custody was reasonable. The Judge would have seen all of the previous abuse and DCFS would have probably gotten in trouble for neglecting to protect the child in the first place let alone trying to place her in that harms way.
A finding of indication of me abusing the child due to munchausen by proxy was taken to the OP hearing the day after they took her, without an investigation being conducted prior to them coming to that finding.
DCFS scurried to have two supporting reports made for that finding, after the finding, which wouldn't support the finding, because the supportive reasons didn't exist prior to or upon the finding, and they were also written by fraudulent doctors, who acted corruptly.
So the child stayed with the Dad during the course of trying to get this case resolved and more and more evidence came out against the corrupt authorities behind the matters.
They all became scared and I started receiving death threats, more death threats than I had before. I received threats from the Police, and Father and his family before, and now according to several people, they were being hired by the police, and father's family and DCFS to kill me so that they wouldn't get in trouble, and according to one individual who was related through cults to them, they had plans to murder my child for sacrifice.
I hired a private investigator who verified this information upon investigating the Father's communication and bank records.
He told me there was a sex cult they were involved with and that the investigator had enough evidence to prosecute, but around this time, with what he was wanting to charge me and what my Attorney was wanting to charge me at the time, My grandmother who was funding the case said her wealthy husband was being asked by an ex chief of police to stop helping me. I am assuming they were being threatened because that was about the last I heard from them out of thin air.
I had people after me trying to kill me and I tried working with the police on this even though they were behind it, literally escorting the person one night to me, that they wanted to kill me, and they waited outside while we talked but that person warned me about the truth instead of harming me. He apparently got in trouble with his friends for doing that.
Sometimes when I went to the Police station for help when I was being chased or stalked by these killers, the police would respond by telling me to get out and leave and that they didn't care.
I spent much of my time trying to get normal services and writing letters asking for help, which only seemed to make matters worse.
During this time when my financial help went away, I was without a lawyer for this case, and attempted to act as my own detective and attorney. I was able to find out a lot about what was going on from some of the people who lived near the Father.
When the police found out I was talking to them to gather information, the Father requested another Order of Protection on me for writing people about the case, in order to prepare for trial.
My attorney asked me to do this before his leave, and according to a different judge, I had the right to do this, but the OP was approved by the Judge handling the child's OP matter.
That judge mislabeled both OP's pertaining to the child and Father the same thing as the custody case, which is

error to indicate that she was acting on behalf of the corporation, taking money under the table for it, instead of operating from professional standards.

I was taken into custody for violating the Father's OP because technically since a corporation was made out of my child, she technically doesn't exist. This is corrupt legal jargon that holds powers in the legal world and allows these manipulators to get away with murder.

My Family, was beyond unsupportive and didn't help me post bail for when I was held there on the matter. Facts were misrelayed to the judge as to what OP I was arrested on and they prosecuted me for violating the one pertaining to the child, which automatically made my case at their facility, a corrupt corporation where they would be allowed to act corruptly in order to gain money.

I was separated from general population and held in a solitary confinement cell in the booking room of the LaSalle County jail due to what was a concern from the jailers that I would tell the fellow inmates about my case and they didn't want me to talk.

While in solitary confinement, I endured all kinds of abuse such as death threats, stripping away all my belongings, depriving me of toothpaste and other normal things including medical services. The nurse bullied me and was rude to me for no reason at all. She removed my right to have commissary immediately and demanded that if I ordered bottled water or anything that she would have to hand pour it.

I started noticing poisons in my food that would nearly give me a heart attack. I was writing complaint letters to the doctor, and the chief jailer, asking for better service. I was taking notes the entire time to give to my psychologist from Chicago Illinois who was working on the civil case, etc. in order to document the abuse so I could obtain emotional pain and suffering compensation. I wrote down every single detail.

I was not allowed to be released and nor would my family help me despite the abuse in the facility. I talked to the doctor about how the nurse abused me and he ganged up on me with her and told me I was delusional for thinking that they were poisoning my water and then tried to prescribe me Zyprexa for this "delusiona;" disorder. They obtained the false reports about me from my civil case such as munchausen by proxy and used it to better help abuse me at that facility. At that point I declined all services from them medically, etc.

I had not complained about them poisoning my water at that point, but the days after, they operated on my sink and the only things that came out at that point, were poisons, I could not drink. Then the food was spiked periodically, so I began eating less and less.

On the 13, of August, 2018, they began doing construction under my solitary confinement cell. Everyone noticed it, was talking about it and making a big deal about it. I made note of it on my documents for Michael Fields, which was was working on getting ready to send through the mail.

The construction went on for several days and was right underneath my cell. I used to hear music playing in the basement beneath my cell, where they would also punch on the vents and chant that Julia was going to die, so I knew there was something down there. I could hear doors slamming down there all the time. I could hear the people doing the construction talking about how whoever was staying in the room above, which was me, was going to die. They pounded on my door, and the walls to my cell and the vents to my cell, threatening and harassing me. On the 18th of August, they were pounding on the vents right on the other side of the vent face to my cell that morning. I thought that was strange. Upon lunch time, I had two hot dogs given to me on the red tray through the chuck hole, and I ate them then continued to work on my notes to My Psychologist Mr. Fields. I had written him on the kiosk to his email that morning that I was scared they were going to kill me.

I began to feel queezy and I passed out, as if I was poisoned. I fell over but was able to recollect myself enough to get to the door and ask for help. My heart started racing and I was scared I was for sure going to die because they had poisoned me and I was unsure about poisons, how they worked and what would happen. I was afraid that it would hurt so bad.

The staff working, told me I was just having a panic attack and to lay down and just breathe. I told them that I am not the type to have anxiety or panic attacks like that because I am normally very calm and practice yoga and meditation.

I demanded to see the nurse and instead of getting her, they stood at the door staring at me while my heart raced out of my chest. By the time I went to the nurses, I immediately started feeling better the minute I got out of that room. The nurse told me there was nothing she could do for me, but I begged to stay with her longer for fear of dying. I felt like I had to puke and defecate.

When I went back into the cell, I immediately felt like I was going to faint again, and that is when I realized that they were spraying something through the vents, and it was not the food because the poisoning feeling came back the minute I entered the cell. I was certain that if I didn't get out of the cell that I would die, so I asked to use the phone. I called my Father and begged him to get me out of there, and bail me out, offering to give him my house and car and sign over my child to the Father, and leave them all alone and go away, and even check myself into a psych ward for the rest of my life if that was what he wanted in order to get me out of there. I was so desperate. I had gone through so much with the case, and being a good mom and worried about my child and never being respected and only bullied for it, that I just broke down. I thought I was going to die and that it would be the last time I talked to my Dad. He didn't believe that they were trying to kill me and told me to wait there while he figured something out. He left me for dead, basically, to go back into the cell that they were spraying me in.

I had to take matters into my own hands at that time and in order to have the guards keep me out of that room, I had to tell them that if they put me back into that cell that I was going to kill myself.
The female guard on duty at that time, told me that they were putting me on the suicide protocol, and she put me in a green suit and into the suicide room.
I was fearful that they were trying to spray me in there too and that they had the whole place rigged. The suicide room cells were right off of the garage to the booking room, and at times the motor to the door was broken and would make a smoke smell, that infiltrated the suicide watch rooms. The smell and chemicals were terrible enough to freak me out. I laid in a ball by the entrance door breathing out a hole thinking they were trying to kill me in there too. I spent my days crying, balling, begging for help, thinking I was going to die at 27 years of age and would never see anyone again without leaving much of a legacy for myself.
The food they gave me in that room were poisoned. I saw one female guard pour poison in a rubber cup before giving it to me in my cell.
One time I took a lick of a cookie to see if it was safe to eat and I immediately started puking up blood and having blood come out of my vagina and anus due to the poisons. My insides would shake and act like they were going to rupture inside my body. I wasn't able to breath unless I took off all my clothes and rolled around doing yoga poses on the cool floor to cool off my poisoned body while doing deep yoga breathing. My heart was racing so bad due to the poisons, it was horrible. I spend most of my time in there puking up anything I ate due to it being poisoned and afraid I would die if I didn't get it all out of my system. I starved nearly to death in there for 2 weeks, and resorted to only drinking water from the phone room, claiming I had to go poop in there, and I ate toilet paper. I couldn't take food from them directed at me without it being poisoned. I tried eating soap and even that made me sick. I cried for help from the nurses in there for feeling faint and like I was going to pass out from being under nourished. I became so hungry that I tried to elaborate on a really bad mental disorder to see if they would transfer me to the hospital so I could tell them about the abuse and have something safe to eat and drink.
The nurses neglected me continually even when I was on the verge of death. I passed out several times and they just threw me in the cell without care for days, to die.
I began getting desperate and tried praying to almost anything I could think of for help. I was told I would not be able to go back into general pop with the other girls, which I wanted to do because I could breathe clean air and have safe food and drink.
The nurse and Chief Jailer tried pushing a gallon of water on me, but I told them I wouldn't have anything from them because none of it was safe. I dreamed about having safe food to eat.
I finally realized that I had to go back into the solitary confinement cell they were spraying me in, in order to hopefully get to the general pop with the other girls where I could be safe.
I decided that I would take all the paper notes I wrote to Doctor Fields, and dip them in the toilet and throw them at the vents to cover the holes, which was messy and smelly but worked.
Surprisingly, with all my efforts to cover the, poisons from the vents STILL seeped through sometimes and made me have migraines and go into seizures. My internal organs burned and quivered from being stuck in that room with poisons seeping in. There were smoke trails being left on the side of the vents where it was still seeping in and the closer I got to it, the worse my seizures would be.
I resorted to taking my bed mat and folding it in an upside down u, in front of the door, then taking my towels and blankets and paying them over the back to block out the room from the crack in the door where I could get clean air, but air still sept in and made the parts of my body and organs closest to the air, burn and shake from pain. My kidneys seemed to be suffering the most. I was suffering permanent organ damage from their poisons. I brought my box up to build a wall behind the blanket barrier. I got yelled at for this and they threatened to take away my protection but I faked a mental disorder and pretended that I was really retarded and incoherent so they would leave me alone. I would say things like how I needed to be close to them otherwise I would be sad, etc, and pretend I loved them so that I could lay there and breathe safe air. I ate only toilet paper and my urine because all the food and commissary they gave me were so poisoned it was unbelievable. I almost died several times from trying, touching it or having the food they put on the chuck hole splash on me, leaving burns on me and scars from it being poisoned.
One day I decided to try this water that the Nurse has been trying to push on me from the beginning. I touched my tongue to it and my tongue burnt off at the top and immediately started gushing blood. It was acid water they were trying to push on me from the very beginning. I had blood on toilet paper wrapped around my tongue and was able to have the cameras take a picture of this would when I went out into the booking room to show the nurse this. I also put the notes to Mr. Fields under the door before throwing them so the cameras would see evidence of that.
The Nurses and Staff would talk outside my door about if I was dead yet and why I wasn't dead yet and talking about how they have been spraying nonstop at full force and so that I must have the vents covered. They tried stopping allowing me to have toilet paper. I became so faint and fatigued from not having food for about 3 months, it was terrible. I began eating the paper towels from the bathroom and I was in extreme fear the whole time for my life and safety.
They delayed the transfer to DHS for being suicidal and abused me in the jail the entire time.
I wrote so many letters to everyone I could think of begging for help. Finally, I was taken out of there and was transferred to the Alton Mental Health Center in Alton Illinois to be deemed fit to stand trial. I weighed 97 pounds at

my arrival to that facility and weighed about 130 upon my arrival to the jail. I lost over 30 pounds in three months while being poisoned and sprayed with gas and being starved. It was a very unfair and damaging combination.
At the Alton Mental Health Center, I ate for three days safely before they started poisoning my food at that facility. They were trying to push medication on me which obviously would have been poisoned.
I begged to stay there though until the maximum potential sentence for my charge was served in order to avoid going back to the jail. The whole time my family tried telling me to take the poisons, either trying to kill me or being too stupid to realize reality of the situation.
I stole food from the girls and was able to eat more there, for three months, but not enough, only able to get about 4 honey buns a week safely.
When I found out that I was being transferred back to the LaSalle County Jail, I convinced my grandmother in desperation to hire one of my old lawyers to help me escape them.
I was held for a week in solitary confinement at the Facility where they sprayed me the entire time, and I covered the vents as usual. I was able to post bond after it was told to the Judge, I was fit to stand trial.
I was put on 2 years-probation for violating a fake Order of protection, which I am now facing a second charge for and I am in need of escaping their doom once again.
All it would take is a couple documents filed on my behalf declaring the corrupt nature of the case from the beginning, and so to get it dismissed entirely, otherwise they are going to try to kill me again.
This is my story, and how I know it's possible they killed Jeffrey Epstein. When they operate corruptly, they operate from a cult or religious, or corporation or maritime law standpoint, which makes you their slave and them be allowed to kill you. It is very criminal, but it is a clause within law that allows them to be corrupt, take pay under the table and get away with crimes like murder.
I need my case conducted properly, with names and titles listed properly so they will be enforced to act professional in line with what they law actually is not what their religion or cult or corporation believes or wants to do.

You have been ordered to have a corruption watch usa website made about you on behalf of Kristin Millers incessant harassment of me and refusal to stop. I dont know if the cold weather is getting to her but she's is psychotic and obsessed with me. I want her off my case. I want her to stop harassing me outside of her job. Since she refuses to stop harassing me outside her job I have no choice but to make this Corruption Watch USA site about you and your co workers because of Kristen. You can thank her. In the future, your sister agency co workers linked with you will also be investigated such as your co workers from the county where you work. They will have a Facebook page just like you. Kristen miller is handling my case from lasalle county. My name is Julia Eickmeier. She is annoying and I'm windering if we can replace her. I dont trust she's fit to even be a lawyer or handle my case physical therefore mentally or emotionally. The peru police tried to kill me so they can have sex with my child and Kristen is trying to help them cover it up.

Also why is brian towne still listed as a special prosecutor when he is retired and he was states attorney. Now Karen Donelley is states attorney. I am wondering if the site and company are even legitimate and if you have any documentation you could send me to prove it.

Thanks

NotreDame Law School is a "Roman Catholic Law School!" At the nation's oldest Roman Catholic law school, Notre Dame Law School encourages students of diverse backgrounds to broaden their social, spiritual, and personal lives while honing their intellectual and professional skills to serve the good of all. https://law.nd.edu/
On the front page it says "Educating a Different Kind of Lawyer"
This means that he is a Satanic Cult member that abuses and probably kills and sacrifices people and children and acts corrupt through his job and manipulating the law to allow all kinds of abuse to children, which is a huge problem for Illinois. It is called Maritime Law, or Kangaroo Courts, where professionals like Patrick, Operate from a personal cult stance, or religious preference rather than follow their professional duties, this is the difference between acting as a magistrate or a clerk, who collects money for their cult, club or corporation, and where corruption is allowed to accept gifts under the table, to give money to their cult. Here is the video of her looking like she is dying in a burning car, then falling out of the car, with something in her hand, and the police shooting and killing her. I don't think it was necessary, and I think since she died, that the police officers should have been told what other procedures they should have

(5 ILCS 265/1) (from Ch. 103, par. 15)
Sec. 1. Whenever any county officer, who has been heretofore elected to any office in any county in this state, shall, for any cause, continue in office after the time for which he was elected, such officer so continuing in office shall execute a new official bond in the same manner, of the same character, with the same conditions and penalties and like securities as now required by law of such officer before entering upon the duties of his office. Should any county officer fail, neglect or refuse to execute such new bond, as above provided, within thirty days after the expiration of the time for which he was elected, the county board of such county may declare such office vacant. The liabilities of the principal and securities of any such bond shall continue during the continuance of such officer in office; but neither the execution of such bond nor the failure to execute the same shall be held to in any wise release or extinguish the liabilities of such officer or his securities on any bond executed by them before the execution of such new bond.

My Story about how I was poisoned almost to death at an American Jail.

This is how I know they could very well have killed Jeffrey Epstein.

One year ago today, on August 18, 2018, I was poisoned in a Governmental Correctional Facility, The LaSalle County Jail of Ottawa, Illinois. There was a lot of corruption in the county of LaSalle ranging from a sex ring, cults, to previous corruption from the authorities, like Chief's of Police's prior workplaces....

Corruption Watch USA believes this is a corrupt agency because, they list fraudulent workers on their site, who don't actually work for them, and leave out people who actually do, for example, Brian Towne, is still listed as an employee there, and he was let go from the legal world and the LaSalle County States Attorney's Office almost 2 years ago, with 17 felony charges. Now I Believe the Special Prosecutor may be Karen Donelley but there is no updated information. Also, Kristen Miller, is a special prosecutor who has been handling my corrupt case in LaSalle County, who has been pursuing fraudulent charges against me such as 2 years probation after 215 days served, well over the 180 days in IL law that dismisses the need for probation, as well as she is trying another false case against me in efforts to kill me to cover up the Peru IL Police Rape of my child. The LaSalle county jail tried to murder me for 7 months straight in custody while awaiting trial for this matter where she was the prosecutor. Also, several cult members tried to kill me to cover up this matter that Kristen Miller is behind. Therefore, It appears to be a fraudulent non legit agency that should not be trusted, and should also be questioned in every way.

Here is the information on their site and links to the corruption watch sites for the employees listed. Thank you for supporting Corruption Watch USA.
